- Identified, contacted, and liaised with community partners for sponsorship.
- Prepared and presented information sessions for GitHub, Git, and game development concepts.

Milliken Computer Studies Club

Apr 2025 - Present

Vice-President

- Lead training sessions for club members on essential algorithms, covering topics such as DFS, BFS, Dijkstra's algorithm, and Minimum Spanning Trees using C++.
- Prepare team members for the Canadian Computing Competition Senior Division through logical problem-solving practice and algorithmic strategy workshops.
- Maintain club repositories and projects, including club websites.

Milliken Geography Club
Founder

Sept 2024 - Present

- Founded a club focused on urban geography and human–environment interactions.
- Direct an executive team overseeing operations, finance, board policy compliance, and outreach.
- Organize field trips and workshops on urban development, historical urbanization, and cultural landscapes.
- Partner with NGOs, schools, and government groups to promote geographic and urban studies education.

Geography Awareness Week Planning Committee
Chairman

Sept 2024 - Present

- Annually prepare a week for local geographic awareness by employing themes specified by the United Nations and National Geographic initiatives.
- Foster efficient inter-committee cooperation and coordination to complete logistics and produce community-centered events.
- Coordinate with faculty staff and external partners to enhance event quality and outreach.

Ontario Association of Geography and Environmental Education
Graphic Designer

Feb 2023 - 2025

- Designed OAGEE program branding and OAGEE physical merchandise using Canva.
- Communicated various design drafts with co-designers and OAGEE.
- Ensured the designs met financial constraints and timelines.
